To: Presidents, Bloomingdale Education Association  
Presidents, Bloomingdale Parent-Teachers Association  
Facility Applicants, Contractors of Record

From: George Hagl  
Board Secretary/Business Administrator

Date: March 10, 2017

re: Annual Re-Notification required by AHERA

"The Asbestos Hazard Emergency Response Act (AHERA) 40 CFR 763 requires all schools from pre-K to Grade 12 to conduct inspections to determine if they contain asbestos containing building materials (ACBM). If they do, the ACBM must be categorized according to the type of material, its locations, current damage, and its potential for future damage and a detailed Asbestos Management Plan must be developed. The Management Plan details the inspection findings, and outlines the response actions the School Board intends to implement.

To accomplish these goals, the School Board now has on file at each school and in the District Office a NJ State Department of Health approved Asbestos Management Plan for all school facilities. The provisions of the plan are being implemented in a timely and on-going fashion. It is the desire of the Board to provide a safe and healthy facility for all students, employees and visitors.

The purpose of this memorandum is to satisfy the requirements of AHERA for written notice of the availability of the Management Plan for review. Should you desire, please contact me for further details.

Since the last written notice, there has been no asbestos response activities to report.
