

Bloomington Curriculum

Grade 3-5 Units

Grade 3-5 Unit Overview

Comprehensive Health Education

The grades 3-5 Comprehensive Health Education Units are a cohesive set of four units that will scaffold instruction from one grade level to the next. The units are made up of a blended set of standards and cumulative progress indicators that fully encapsulate the major ideas and themes behind the unit. The incorporation of different standards through major, supporting and additional concepts provide a greater opportunity for comprehensive health instruction in each unit. Students will begin the year with a Wellness unit that blends general health skills involving topics such as hygiene, nutrition and physical activity. Units will then progress to develop decision making skills which will be applied in various situations in later units involving physical activity, alcohol, tobacco, drugs, relationships, interpersonal communication, and character development.

Unit I Wellness

Unit II Alcohol, Tobacco, and other Drugs

Unit III Family Life

Unit IV Community Health Skills

Bloomingdale Curriculum Grade 3-5 Units

Unit 1: Personal Growth/Wellness

2.1.4.A The dimensions of wellness are interrelated and impact overall personal well-being.	2.1.4.A.1	Explain the physical, social, emotional, and mental dimensions of personal wellness and how they interact.
	2.1.4.A.2	Determine the relationship of personal health practices and behaviors on an individual's body systems.
2.1.6.A Staying healthy is a lifelong process that includes all dimensions of wellness.	2.1.6.A.1	Explain how health data can be used to assess and improve each dimension of personal wellness.
	2.1.6.A.2	Relate how personal lifestyles habits, environment, and heredity influence growth and development in each life stage.
2.1.4.B Choosing a balanced variety of nutritious foods contributes to wellness.	2.1.4.B.1	Explain how healthy eating provides energy, helps to maintain healthy weight, lowers risk of disease, and keeps body systems functioning effectively.
	2.1.4.B.2	Differentiate between healthy and unhealthy eating practices.
	2.1.4.B.3	Create a healthy meal based on nutritional content, value, calories, and cost.
	2.1.4.B.4	Interpret food product labels based on nutritional content.
2.1.6.B Eating patterns are influenced by a variety of factors.	2.1.6.B.1	Determine factors that influence food choices and eating patterns.
	2.1.6.B.2	Summarize the benefits and risks associated with nutritional choices, based on eating patterns.
2.1.4.C The use of disease prevention strategies in home, school, and community promotes personal health.	2.1.4.C.1	Explain how most diseases and health conditions are preventable.
	2.1.4.C.2	Justify how the use of universal precautions, sanitation and waste disposal, proper food handling and storage, and environmental controls prevent diseases and health conditions.
	2.1.4.C.3	Explain how mental health impacts one's wellness.
2.1.6.C The early detection and treatment of	2.1.6.C.1	Summarize means of detecting and treating diseases and health conditions that are prevalent in adolescents.

Bloomingdale Curriculum Grade 3-5 Units

diseases and health conditions impact one's health.	2.1.6.C.2	Determine the impact of public health strategies in preventing diseases and health conditions.
2.6.4.A Each component of fitness contributes to personal health as well as motor skill performance.	2.6.4.A.1 *	Determine the physical, social, emotional, and intellectual benefits of regular physical activity.
	2.6.4.A.4 *	Determine the extent to which different factors influence personal fitness, such as heredity, training, diet, and technology.
2.6.6.A Knowing and applying a variety of effective fitness principles over time enhances personal fitness level, performance, and health status.	2.6.6.A.1 *	Analyze the social, emotional, and health benefits of selected physical experiences.

Unit 2: Alcohol, Tobacco and Other Drugs

2.3.4.A Medicines come in a variety of forms (prescription medicines, over-the-counter medicines, medicinal supplements), are used for numerous reasons, and should be taken as directed in order to be safe and effective.	2.3.4.A.1	Distinguish between over-the-counter and prescription medicines.
	2.3.4.A.2	Determine possible side effects of common types of medicines
2.3.6.A Medicines come in a variety of forms (prescription medicines, over-the-counter medicines, medicinal supplements), are used for numerous reasons, and should be taken as directed in order to be safe and effective.	2.3.6.A.1	Compare and contrast short- and long-term effects and the potential for abuse of commonly used over-the-counter and prescription medicines and herbal and medicinal supplements.
2.3.4.B Use of drugs in unsafe ways is dangerous and harmful.	2.3.4.B.1	Explain why it is illegal to use or possess certain drugs/substances and the possible consequences.
	2.3.4.B.2	Compare the short- and long-term physical effects of all types of tobacco use.
	2.3.4.B.3	Identify specific environments where second-hand/passive smoke may impact the wellness of nonsmokers.
	2.3.4.B.4	Summarize the short- and long-term physical and behavioral effects of alcohol use and abuse.
	2.3.4.B.5	Identify the short- and long- term physical effects of inhaling certain substances.
2.3.6.B There is a strong relationship between individuals who abuse drugs and increased	2.3.6.B.1	Explain the system of drug classification and why it is useful in preventing substance abuse.

Bloomingdale Curriculum Grade 3-5 Units

intentional and unintentional health-risk behaviors.	2.3.6.B.2	Relate tobacco use and the incidence of disease.
	2.3.6.B.3	Compare the effect of laws, policies, and procedures on smokers and nonsmokers.
2.3.4.C Substance abuse is caused by a variety of factors.	2.3.4.C.1	Identify signs that a person might have an alcohol, tobacco, and/or drug use problem.
	2.3.4.C.2	Differentiate between drug use, abuse, and misuse.
	2.3.4.C.3	Determine how advertising, peer pressure, and home environment influence children and teenagers to experiment with alcohol, tobacco, and other drugs.
2.3.6.C Substance abuse is caused by a variety of factors.	2.3.6.C.1	Summarize the signs and symptoms of a substance abuse problem and the stages that lead to dependency/addiction.
	2.3.6.C.2	Explain how wellness is affected during the stages of drug dependency/addiction.
2.2.4.B Many health-related situations require the application of a thoughtful decision-making process.	2.2.4.B.1*	Use the decision-making process when addressing health-related issues.
	2.2.4.B.2*	Differentiate between situations when a health-related decision should be made independently or with the help of others.
	2.2.4.B.3*	Determine how family, peers, technology, culture, and the media influence thoughts, feelings, health decisions, and behaviors.
2.2.6.B Every health-related decision has short- and long-term consequences and affects the ability to reach health goals.	2.2.6.B.1*	Use effective decision-making strategies.
	2.2.6.B.2*	Predict how the outcome(s) of a health-related decision may differ if an alternative decision is made by self or others.
