Month	September	October	November	December	January	February	March	April	May	June
Skills /Projects	*Students practice their typing skills everyday *Every new section comes with its set of vocabulary words *It is reinforced to save everything in their perspective folder				Same as Term 1			Same as Term 1		
	<ul style="list-style-type: none"> - Review editing & formatting - Thouroughly discuss customizing tables so that students can create an advertisement from a magazine or a newspaper. -Importance of all types of bullying is discussed and the AUP. 	<ul style="list-style-type: none"> - Students will apply very day formulas from their textbooks into a spreadsheet. - Some examples are: Average, figuring out the tax or percentages. - Students also survey our school and decide which class prefers, for instance, the Wii versus Xbox. All information is gathered, filtered & graphed using a spreadsheet, then it is displayed in a poster. 	<ul style="list-style-type: none"> -Students will create a powerpoint presentation on how technology has affected society. This information is gathered by surveying how technology has influenced their relatives/families workplace. - The main focus is typing less and sharing more during the presentation.
